Douglas's Bill for Slavery.

The Bangor Journal has had a good deal of complaint to make recently because the Republicans in Congress do not take up and pass through the House, Douglas's bill for "quadrilateral" Kansas, "the editor apparently admits that measure, and in so doing he shows the real hypocrisy of the free soil professions which have appeared so abundantly in the columns of the Journal. He goes for a bill which has the sanction and support of the slavery propagandists—the men who are most anxious to fix slavery upon Kansas—and which bill was undoubtedly intended to give the slaveholders all the opportunity possible for taking advantage of the repeal of the Missouri Compromise. NOW, The Republicans in Congress do not accept, for it, as a device of the enemy—concocted by the foes of freedom—by the very men indeed who originated the most monstrous outrage against freedom, in overthrowing the anti-slavery restriction of the Missouri compact. Yet—THE BANGOR MAN would come forward two years ago in the Senate of the United States, and with an utter recklessness to the freemen and free interests that he represented, deliberately become the tool and the instrument of the slave power in removing the sacred barrier to the spread of slavery over the great central regions of the continent—this song is the author and puppeter of the thrill of patriotism, which the Bangor Journal declares the Republicans to adopt—"Pacific[illegible] indeed. It is like the offer of protection made to the Free State men of Kansas by the United States authorities. They should be protected against the atrocities of the Border Ruffians, whenever they would vote all the laws and decisions of the Ruffians. Douglas's bill would "popularize" Kansas by fixing slavery upon it. The Republicans unless mad! That this is the hope and expectation of the slaveholders in regard to that bill. They understand that it is no bill for freedom, and it would be wonderful in such a case if they can support it. That is why the Bangor Journal, with its Buchanan affiliations, we can very well understand. For ourselves, we want no more of Cyprian Aaronism. Douglas's bill—and we think the freemen of the country want no more of it then.

In regard to the bill now offered by Mr. Douglas it is sufficient to say that its effect is altogether distrusted by the Free State men of Kansas—looked upon, indeed, as almost desperate in favor of slavery, if not in fact so intended. On this head we refer for readers to an examination of this bill by Hon. Governor Roberts of Kansas, published in the Daily Whig of July 19th; and also to an article from the N. Y. Courier and Enquirer, published in our issue of July 15th.

The objections to Douglas's bill come, not from the N. Y. Tribune (as the Bangor Journal pretends—only asserts) but from the people of Kansas themselves—and they are sound objections.

What does the Bangor Journal, complain of the Senate for not passing the House bill to admit Kansas with the Topeka Constitution? Why does it not denounce the democratic leaders for basely standing in the way of the admission of Kansas, in their refusing the opportunity to vote on a bill which suits the free people of Kansas. Democratic right is our watchword not left quarter. The Journal favors the latter.

The Good Cause Down East.

A gentleman has recently come from Lincoln County, and tells us that that former Democratic of the sham democracy will absolutely give a majority for Hamlin and the Republican cause this fall—that the people are thoroughly aroused, and determined to set the seal of condemnation upon the recent encroachments against freedom.

Republicanism has been rapidly gaining in the whole eastern region of the State, for the past year, and we are not now surprised at the claim of an absolute majority in Androscoggin, Kennebec and Washington, as well as in Penobscot, our majorities will be overwhelming.

The people's Convention of the Sixth District elected Hon. Stephen C. Foster for Representative to Congress over the nominal Democratic [illegible] Neary every township throughout was represented, and 200 delegates were present. Hon. Anson P. Morrison, of Orland, was nominated as Senator.

An Attempt Made to Punish Them!

Last Tuesday, pursuant to [illegible] the Nebraska administration and the leaders of the slave democratic Supreme party have ever made the slightest movement or attempt to punish the rebels at Leavenworth who have [illegible] Kansas, [illegible] slave State, had been guilty of ROBBERY, ARSON MURDER, RAPE, and every other crime of which human nature can be guilty. Not one of them has been punished for his crimes—not even to make a show. WILL IT, if the negro-loving Democracy [illegible] mind to go war, who may be in the Pierce administration and support of the slavery propagandists—the men who are most anxious to fix slavery upon Kansas—and which bill was undoubtedly intended to give the slaveholders all the opportunity possible for taking advantage of the repeal of the Missouri Compromise. NO! The Republicans in Congress do not accept, for it as a device of the enemy—concocted by the foes of freedom—by the very men indeed who originated the most monstrous outrage against freedom, in overthrowing the anti-slavery restriction of the Missouri compact. Yes—THE BANGOR MAN would come forward two years ago in the Senate of the United States, and with an utter recklessness to the freemen and free interests that he represented, deliberately become the tool and the instrument of the slave power in removing the sacred barrier to the spread of slavery over the great central regions of the continent—this song is the author and puppeter of the thrill of patriotism, which the Bangor Journal declares the Republicans to adopt—"Pacific[illegible] indeed. The Good Cause Down East.

A gentleman has recently come from Lincoln County, and tells us that that former Democratic of the sham democracy will absolutely give a majority for Hamlin and the Republican cause this fall—that the people are thoroughly aroused, and determined to set the seal of condemnation upon the recent encroachments against freedom.

Republicanism has been rapidly gaining in the whole eastern region of the State, for the past year, and we are not now surprised at the claim of an absolute majority in Androscoggin, Kennebec and Washington, as well as in Penobscot, our majorities will be overwhelming.

Consistency of Action.

Freedom of Speech is a taken with blackcoats in the Senate Chamber, freedom of the press is support by physical violence and piratical proceedings in the Southern States, by the slaveholders themselves; *and freedom of the pulpit* is attacked at the North by the Illinois and Oldtown democracy, in their open denunciation of the sin and wickedness of slavery, and the threat of expelling Gallon from their pulpit.

Immediate Importance.

The [illegible] Age contains the following item:

Mr. EDITOR.—I noticed in the Free Press several weeks since, my name among those appointed as a committee of the public. The last will not take, and I must respectfully decline the honor, if I have always been a while and shall continue to support what principles I neither subscribe to Buchanan democracy, nor do I intend to be implicated in the recent transfer of the whig party to be Bushwhackers at Bangor. I voted for Gen. Reed last year, not understanding the game that was to be played off. I shall vote this year for Fremont and Dayton, because they stand upon a platform representing my principles.

HENRY H. WIPPLE.

Mr. JOHN F. Underwood, who was [illegible] out of Virginia by the slave oligarchy for the crime of attending the Philadelphia Convention, has made a [illegible] speech at a Fremont meeting in New York, that Virginia exports from 20,000 to 25,000 slaves in the region South per annum, the wretch who gets from $20,000,000 to $25,000,000!

THE CASE OF JUDGE DAVIS, (Kan.) is seen by the report of opinion of the Supreme Court delivered yesterday in this city, and noticed in this paper. In the Court decide Judge Davis's memorial to be before them, and shall, as not to bring the case within its jurisdiction, and they consequently express no opinion upon its merits. Judge Goodenow dissented from the conclusion of the Court. The case of Judge Davis is before the people, who will not fail to express an opinion upon its merits at the ballot-box.

Sunday School Excursion.

The Pine Street and the Union Street Methodist Sunday Schools, with their friends, went on board the Steamer Webster at 9 A. M., July 22, for an excursion to Long Island, about 50 miles below Saltcity. The day was beautiful and the company [illegible] enjoyed the occasion finely.

The [illegible] were passed around in [illegible] Neatly [illegible] each accompanied with a smile.

The scenery on the Penobscot river appeared to better advantage, the steam of social conversation flowed freely, and the officers of the noble steamer paid no pains to make all happy.

Arrived at Long Island at 2 P. M., and spent some two hours in taking dinner, roaming over the Island and inhaling the sea breeze, after which we went on board, made our most polite bow to the good people of Castine village, and returned to the city with the [illegible] that when the S. S. pic-nic again we may be there to go.

On our return we were favored with the singing of several appropriate pieces and with short addresses by Messrs. P. Eddy, of Oldtown; H. C. Hamlin, of Orono; and R. B. Curtis, of Bangor.

On Bangor friends deserve much praise for getting up the excursion, as no inconsiderable gain for three hard hours, to a tiresome setting only 25 cents!

The Officers and [illegible] performed their duties to the entire satisfaction of all concerned. We advise those who wish to enjoy a very pleasant excursion to give Capt. Blanchard a call, and if they are not happy it will be their own fault.

The Internal Brutes.

The horrors of the Kansas war do not seem to have slackened a bit. The following is the latest, and comes from a source entitled to entire credit, the Tribune correspondent of the Orleanist Gazette. It ought to rouse every heart and quicken every arm to effectual rescue, and at the ballot box annihilate the accursed politicians at Washington who have let loose these fiends on our fair prairies:

"I heard to-day of an outrage which exceeds any that I have heard of during the Kansas troubles. A man by the name of Richards, formerly of Ohio, residing on Pottawatomie creek in the southern portion of the territory, had occasion to go to Westport, left home on Thursday, am., with the understanding that he would be back in four days. During the first day of his absence, two men came to his house and enquired for him, telling that he was not at home they left, saying they would call when he got back, and he was passing them to do so, stating what he would be home in a day or two.

About two o'clock that night, after the family had retired, a knock was heard at the door. Mrs. Richards asked what was wanted; the reply was, we want to see Mr. Richards. She replied that he was not at home. They then commanded Mrs. Richards to open the door—"He is a G—d—d Abolitionist, we must have him." She again replied, he is not at home, and refused to open the door. It was then broken open, and seven or eight men entered the room and commenced searching for Richards. Not finding him they accused Mrs. Richards and her daughter, an intelligent young lady about nineteen, of secreting him. The ladies completely bewildered with terror, protested they had told the truth, and that they had not secreted him—that he had really gone to Westport. One of their men then replied, "Then G—d—n you, we want you," and dragged the daughter from the bed, and from the house into the bushes close by, and there prosecuted deliberately to violate her person. Her mother was treated in the same manner, and then left for dead.

How long they remained in the bush they were unable to tell, but they managed finally to reach the house where they were found by one of the neighbors the next morning, who, after providing for their personal comfort immediately started to raise a company to pursue the villains. In six hours a company of twenty-six men were raised, numbering about 30, who, under the command of Mr. Smith, started on the trail. They traced them into a party of about a hundred men, situated in a deep ravine some distance from the creek. Finding that they were too strong to fight, some of the company started for assistance, while the others continued to watch their proceedings. The watchers were, however, unfortunately discovered, and consequently had to leave, and by this time their companions returned, the camp had been moved, and the ruffians escaped.

This affair has caused great excitement throughout the Territory, and is almost too horrible to believe. I had the facts from Mr. Richards himself, who is known to me as Gov. Woodson, to endeavor to get justice done, but without avail, and has come to Topeka to get the citizens to help him arrest the perpetrators of this most diabolical outrage. It has since been ascertained that the scoundrels were a part of Jo Lord's men, *who are armed with United States muskets, and in the pay of the United States Government.*

Female Outrage and Murder in Timothy.

The following incidents are related of the recent burning of the steamboat Northern Indiana, on Lake Erie:

"An Irish woman, named Bridget Glynn, with four children, was on board the burning boat. She threw her children, the youngest of whom was a nursing infant, into the water, and then followed them. She maintained the most desperate presence of mind, and while sustaining herself from sinking, she preserved all from the dogs from drowning, instepping them now to keep up, and raising them often as they sank. One was drawn under and passed over a small boat from the Mississippi. The mother, as soon as the boat passed by, brought each of her children, and grasping at the hair, drew to the child, her eldest. The mother and four children remained saved. They were on their way to join the husband and father at Chicago.

One man came upon deck, with his hands full of money, and his watch hanging by the guard chain upon his arm. He was in great distress to know what he should do with those things? 'Bother,' he cried, 'what I shall do with my money?' he was told that he must throw it away if having his hands burthened with it, he should be lost. He wasn't to be deterred by the excitement of the time. Finding he threw his watch overboard and put his gold in his pocket. A young lad who had stripped to jump in, saw the watch flying, and seeing after it, catching it on his arm before it reached the water. He hung it around his neck, and being a good swimmer, kept it at that all day. He was rewarded by the owner, who was also, with his.

A correspondent in California says: It is stated that there have been four hundred murders in San Francisco in the last seven years. There is no doubt of murders enough undoubtedly, and of that sort of every kind; but this number is certainly by the most strikingly reprehensible exercise and we have been introduced by the reporters to the ordering of a man several times over for the sake of the interest felt.

FROM THE DAILY WHIG AND COURIER

Congressional.

Washington, July 16.

SENATE. Mr. Wilson submitted a resolution, which lies over, requesting the President to inform the Senate whether the reported reply of Gen. Smith, refusing to protect the citizens of Lawrence from bands of armed marauders, was true, and if so whether such reply was authorized by instruction from the President or Secretary of War.

The Senate took up private bills, and one or two of a legislative character, and passed them.

Adjourned over.

Mr. Wilson called the yeas and nays on this question, but they were not ordered, only few Senators being then in the hall.

Mr. Adams remarked that it was extraordinary that such a motion should be made on the last days of the session of Congress, when there was such business yet to be acted upon. It seemed as if Senators were going to record their votes on the question to be considered hereafter.

Mr. Wilson said he had been afraid; but the Senate was now full at one of the Clerk, and if they remained three days in the week it would be impossible to consider the bill during the present session.

The motion to adjourn till Monday was then agreed to—yeas 28, nays 24. A quorum not voting.

HOUSE.—A message was received from the President, recommending an appropriation of $8,500 to reimburse the purchaser of the building and lands from the Post Office Department, and $50,000 for the fitting up the same, which was referred.

The House took up and passed 19 private bills, among the Senate bill for the relief of the widows and orphans of the officers and seamen on board of the Sloop of War Albany, and the following Wednesday and the 28th of June were set apart for the consideration of the bills reported from which the private calendar was made.

The House took a recess till 7 P. M.

EVENING SESSION. Mr. Crawford, speaking of the slavery question, said the North never opposed it except when called to it by the aggressive movements of the South, and from the Union, while the South acted in the Oregon bill. The compromise measures of 1850 gave the South nothing which she was not entitled to, and now she was, as they secured to them it to be repudiated. The parties opposed to the democracy

Mr. Powell, of Kentucky, and Mr. Fremont, also spoke on purely sectional grounds the party would go from the Union. He would not say that, but these principles and principles would lead to that end.

Mr. Kaw-Nott was in favor of the Senate bill.

Adjourned over.

Vermont Democratic Convention.

MONTPELIER, Vt., July 24.

The Democratic State Convention was held here to-day. Col. J. K. Kidder, of West Fairlee, presided. The following nominations for Governor, Hon. Horace Eaton, of Barnet, Lieut. Governor, Wm. Hebard, of Burlington; State Treasurer, James Meacham, of Montpelier; Electors at Large, Hon. Robinson of Bennington and Col. J. P. Allen.

The convention was well attended and much interest manifested. A series of resolutions, covering the whole ground of Democratic principles, were unanimously adopted, and the nominations made with the most confidence in the success of the ticket. Speeches were made by Messrs. Eaton and Brockway, of Montpelier, the Cincinnati Platform, the repeal of the Kansas-Nebraska act, and the Democratic party, highly pure and favorable the administration of Frank Pierce, were also warmly received.

California Steamers

Carrying the United States Mail.

25th and 20th of each Month.

Reduced Rates. 100 lbs. Baggage free.

The Splendid, New and Fast Steamship

Panama, 1,

A Member of the Pacific Mail Steamship Company will leave the Office of the United States Mail Steamship Company, foot of Canal street, New York, direct to Aspinwall on the 5th and 20th of each month, (or the day following if the 5th or 20th should fall on Sunday), connecting at Aspinwall with the Company's Steamers for San Francisco, touching at Kingston, Jamaica.

Through tickets are issued at the Railroad Depot, Aspinwall, and passengers are thus carried to the Pacific Steamer *without transhipment*. The Isthmus is crossed in the Company's Railroad Cars, in about *Four Hours*, *ride by daylight*, thus avoiding the unhealthy exposure at night in open boats to fever and ague, and the still greater dangers from reptiles and alligators, met with at this and other points.

Arrangements have now been completed so that through tickets can be procured at the office of the Pacific Mail Steamship Company, at the Atlantic side, same day as sailing, thus securing passage to the Main Route and shortening the transit by one week.

☞ *Each ticket is signed by one of the Company's Agents, without which they will be considered void.*

The Company's Steamers sail from Panama and Aspinwall on the 5th and 20th of each month, touching at Kingston, Jamaica, both going and returning.

Through tickets can be procured at the office of the Company, No. 56 Broad street, Boston, which will be given for the 5th of each month.

Fisk's Patent Metallic BURIAL CASES!

THESE CASES are extensively used, and constitute a valuable substitute for wood, on account of their durability, and the perfect security they afford for transports from Deep Mining or Yellow Fever districts. They are made in the most fashionable Materials, also plain and common, and can be preserved in any climate, without the slightest deterioration, for any length of time. Not only are they very convenient, of easy handling, and light, but they possess the important advantage of preventing the escape of any noxious effluvia from the remains they contain, and take the certainty out of Burial.

Over 1,000 of these Cases have been furnished to the Undertaking trade in Boston, and not one has failed to give entire satisfaction.

Many testimonials of the above fact can be seen at the Warerooms.

Hundreds of Funerals have been attended by the Undersigned, and in no instance has there been the slightest failure.

Many of the Undertakers who have used these Cases for years, say they would not be without them for double the cost.

Any person wishing to purchase a Case, can have the privilege of trying it for a month, and if not satisfactory, can return it.

Undertakers can be supplied with Cases, Trimmings, Plates, &c., at short notice, and on the most reasonable terms.

Orders from any part of the country will receive prompt attention.

AYER'S CHERRY PECTORAL,

FOR THE SPEEDY CURE OF

Colds, Coughs, and More serious

Diseases of the Throat, Lungs and Chest, such as Consumption, Bronchitis, Croup, Whooping Cough, Asthma, Incipient Consumption, and for the relief of consumptive patients in advanced stages of the disease.

Dr. J. C. AYER & CO., Lowell, Mass.

Sold by all Druggists throughout the world.

Consumption.

Ayer's Cherry Pectoral is performing many truly astonishing cures of pulmonary complaints in this section. Even those considered incurable, and given up to die, have been restored to health and vigor by the use of this powerful remedy. Many of these cases have been published in our American exchanges, and are well known to the people.

HIRAM CONKLIN, M. D.

ASTON, Pa., Nov. 27, 1854.

Dr. J. C. AYER & CO.—Gentlemen: I have used your Cherry Pectoral in my practice, and have found it a most excellent remedy for Coughs, Colds, Hoarseness, Croup, Influenza, Whooping Cough, and Consumption. Indeed, it is the best remedy we can employ for the relief of patients laboring under pulmonary complaints, and as a public duty I cheerfully furnish you this certificate of its virtues.

Dr. J. C. AYER & CO.—Gentlemen: I have been afflicted with Asthma and Bronchitis for many years, and have tried many remedies, but never found any permanent relief until I commenced using your Cherry Pectoral. Since then I have not been confined to my house by my lungs for one day. I have recommended it to many others, and they have found relief from its use.

HENRY T. PATES, Merchant.

ALMOND, N. Y., Oct. 15, 1854.

Dr. J. C. AYER & CO.—Gentlemen: I have been afflicted for many years with a severe Bronchial affection, which finally settled on my lungs, producing a distressing cough, and raising a large quantity of matter. I was induced to try your Cherry Pectoral, and after using two bottles, was entirely cured. I am now in the enjoyment of health, which I owe entirely to your skillful preparation.

Yours, with respect, ELIZA ANN STEVENS.

Croup, Whooping Cough, Influenza.

PLYMOUTH, Miss. Feb. 1856.

Dr. J. C. AYER—Sir: I will cheerfully certify you of the last remedy you favored me with for the cure of Whooping Cough, Croup, and the distressing Coughing which prevailed to an alarming extent in this place. Your Cherry Pectoral has relieved and saved the children of many families in this region.

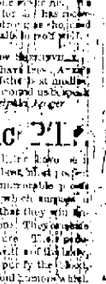
Ayer's Cathartic Pills



Have the same relation to the accumulation of morbific matter in the system that an emetic has to that in the stomach. They are safe, certain and speedy in their action. Their pills like one to not only relieve the stomach, but they thoroughly cleanse the intestinal canal, the liver, and the whole glandular system, restoring the organs to healthy action, and purifying the blood. Hence they cure Dyspepsia, Biliousness, Liver Complaint, Rheumatism, Gout, Erysipelas, Scrofula, Ulcers, Eruptions, Tumors, Salt Rheum, Neuralgia, Female Complaints, Dropsy, Worms, Piles, Drunkenness, Syphilis, Consumption, and all the various complaints that arise from impurities in the blood. Their sugar coating renders them pleasant to take, and they are the best purgative yet known for children.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

Sold by CYRUS STURDIVANT, Bangor, and by Druggists and dealers in medicine everywhere.

All the Druggists in this agency, and all Druggists everywhere sell Ayer's Cherry Pectoral, Ayer's Cathartic Pills, Ayer's Sarsaparilla, Ayer's Ague Cure, and Ayer's Hair Dye.

German Fly Paper.

PROF. MORSE'S German Fly Paper, for the sure and speedy destruction of Flies, Roaches, &c.

This valuable article has been before the public for the past two years, and has proved itself to be the most deadly poison for the above named pests ever discovered.

Housekeepers and Families will find it the cheapest, simplest and safest article in existence. It is perfectly harmless to man, and will not stain the most delicate fabric, while it is certain to destroy every fly that comes in contact with it. By leaving the paper in the room a few days, it will destroy more flies than can be caught in a month by any other process. Beware of worthless imitations, and of preparations which are offered as the "same as Morse's," which are of short duration and of no account. Be sure to inquire for the Yellow Fly Paper, and see that the name of the inventor, PROF. MORSE, is on the wrapper of each sheet. Each sheet is sold separately, so that one cent will destroy a fly.

Full directions on each sheet. For sale by druggists generally.

Chair & Cabinet Furniture Warehouse, Door, Sash and Blind Factory.

A. DUNBAR

Has been very successful in consolidating the several interests formerly known as Door Frames, Doors, Window Frames and Sash, and Blinds, the ground dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has a superior stock on hand to enable him to supply purchasers about to build the best articles of Door Frames, Window Frames, Sashes and Blinds, and to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building are very much lessened by having these articles made separately, so that the carpenters have only to put them in their places in their structures.

This business has now become so well systemized that only a small margin is left in knowing before-hand the cost of dwelling-houses, which is the work of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Kings Place, or at the store of M. S. Morrison, on Exchange st., and at either place any article may be obtained of large or small dimensions.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized, as the business that no man should now think of sending to the old and slow and imperfect methods.

Singer's Sewing Machines.

ALL PERSONS who desire to obtain full and reliable information respecting SINGER'S SEWING MACHINES—their principles, capabilities, advantages, modes, improvements, methods of working, manner of performing them, and all other particulars—can do so by applying at our office,

No. 323 Broadway, New York.

Letter or in person for circulars.

I. M. SINGER & CO'S GAZETTE.

This paper is devoted entirely to the Sewing Machine interest. Copies will be supplied gratis to all interested.

N. B.—The unprincipled character of some Sewing Machine dealers renders it proper to caution the public against purchasing machines that infringe our patents, of which we own sixteen. Suits for the infringement of our patents have recently been decided in our favor in the U. S. Circuit Courts in New York and New Jersey. In Boston suits for the great principle of

Sewing the Seam by Feeding the Cloth Endwise, Holding down the Seam to be Sewed by the Surface of the Machine, by a yielding pressure,

which is used in all Sewing Machines—have been fully established. The Wheeler & Wilson, and the Grover & Baker Sewing Machines as well as those infringe three distinct patents owned by us. We have suits against all and several of the U. S. Courts, which will result in their final overthrow unless the public heed our warning and cease purchasing Machines which infringe our rights. Such purchasers will be dealt with as infringers.

Local Agents wanted to make sales of our improved noiseless machines. To persons of property qualified for the business, liberal inducements will be offered. New and improved machines exchanged on liberal terms for old ones of every kind.
